

Lisa Chung
Chinese Taipei

Dr. Lisa Chung is originally from Taipei, Taiwan. She received her Doctor of Optometry degree, O.D., from the State University of New York College of Optometry, USA. Dr. Chung is a licensed Therapeutic Optometrist and Glaucoma Specialist in the United States. Since graduation, she has worked in various primary eye care settings, including LASIK surgical centers, as well as private optometric offices in California, USA. In 2014, she decided to return to Taiwan with her husband and two young children, where their ancestral roots and family are. After her move, Dr. Chung continued to serve the Optometric Community by teaching at the Mackay Junior College of Medicine, Nursing and Management, Department of Optometry, where she served as the Contact Lens Clinic Instructor. Besides her love for teaching, she also served as the Senior Research Scientist at Brighten Optix Research and Development Center, where she continued to conduct clinical research and assisted in new products development in specialty contact lenses. In 2022, Dr. Chung was appointed as the Director of Professional Services at Brighten Optix. With this new role, she wishes to continue to serve the optometric community, by sharing her clinical knowledge and experience with her fellow colleagues.
